ADVANTAGES

Easily Accessible Listed on the NYSE Arca. Secure The Gold Shares represent fractional, undivided interests in the Trust, the primary asset of which is allocated (or secured) gold.	Transparent There exists a 24-hour global over-the-counter market for gold bullion, which provides readily available market data. The price, holdings and net asset value of Gold Shares, as well as market data for the overall gold bullion market, can be tracked daily at: www.spdrgoldshares.com .
Cost Effective For many investors, the transaction costs related to the Gold Shares are expected to be lower than the costs associated with the purchase, storage and insurance of physical gold.	Flexible Gold Shares are listed on the New York Stock Exchange Arca (NYSE Arca: GLD) and trade the same way ordinary stocks do. It is possible to buy or sell Gold Shares continuously throughout the trading day on the exchange at prices established by the market. Additionally, it is possible to place market, limit and stop-loss orders of Gold Shares.
Liquid Structure allows for baskets to be created and redeemed according to market demand, creating liquidity.	

[‡]The Sponsor and the Marketing Agent have agreed to reduce the fees payable to them from the assets of the Trust to the extent required so that the estimated ordinary expenses of the Trust do not exceed an amount equal to 0.40% per annum of the daily net asset value. Investors should be aware that if the value of the Trust assets is less than approximately \$388 million, the ordinary expenses of the Trust will be accrued at a rate greater than 0.40% per year of the daily ANAV of the Trust even after the Sponsor and the Marketing Agent have completely reduced their combined fees of 0.30% per year of the daily ANAV of the Trust. This amount is based on the estimated ordinary expenses of the Trust.

Neither diversification nor asset allocation ensure profit or guarantee against loss.

Commodities and commodity-index linked securities may be affected by changes in overall market movements, changes in interest rates, and other factors such as weather, disease, embargoes, or political and regulatory developments, as well as trading activity of speculators and arbitrageurs in the underlying commodities.

ETFs trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above or below the ETFs net asset value. Brokerage commissions and ETF expenses will reduce returns.

Important Information Relating to SPDR Gold Trust:

The SPDR Gold Trust ("GLD") has filed a registration statement (including a prospectus) with the Securities and Exchange Commission ("SEC") for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents GLD has filed with the SEC for more complete information about GLD and this offering. You may get these documents for free by visiting EDGAR on the SEC website at www.sec.gov or by visiting www.spdrgoldshares.com. Alternatively, the Trust or any authorized participant will arrange to send you the prospectus if you request it by calling 1-866-320-4053.

GLD shares trade like stocks, are subject to investment risk and will fluctuate in market value. The value of GLD shares relates directly to the value of the gold held by GLD (less its expenses), and fluctuations in the price of gold could materially and adversely affect an investment in the shares. The price received upon the sale of the shares, which trade at market price, may be more or less than the value of the gold represented by them. GLD does not generate any income, and as GLD regularly sells gold to pay for its ongoing expenses, the amount of gold represented by each Share will decline over time. Investing involves risk, and you could lose money on an investment in GLD. **Please see the GLD prospectus for a detailed discussion of the risks of investing in GLD shares.**
